“Life is mostly froth and *bubble*
Two things stand like stone:
Kindness in another’s trouble,
Courage in *your own*.”

- ADAM LINDSAY GORDON, WRITER

“The universe BURSTS into existence from life, not the other way around as we have *been taught*. For each life there is a universe, its own universe. We generate *spheres* of reality, INDIVIDUAL bubbles of existence. Our planet is comprised of *billions* of spheres of reality, generated by each individual HUMAN and perhaps even by each *animal*.”

- ROBERT LANZA, SCIENTIST
